# Clean Drive®

ADVANCED FUEL & EXHAUST SYSTEM CLEANER

## ADVANCED FUEL & EXHAUST SYSTEM CLEANER

Scientifically proven to enhance fuel efficiency and overall performance of any vehicle.

CleanDrive® cleans, cares for, and improves the condition of the engine in one easy step: Just add CleanDrive® to the fuel tank every three months. Take Vehicle Performance Further. Further doesn't just mean more distance on less fuel, it means a longer life-span too. Just one step to clean, care for, and improve the condition of the vehicle engine.

**MADE IN UK**

Marketed by

- Cut fuel costs by up to 15%
- Cut vehicle emission by up to 60%
- Prevents loss of power
- Removes carbon from exhaust valves
- Cleans the DPF, CAT and lambda sensors
- Lubricates engine walls
- Use every three months
- Great to use before an MOT test
- *Improved formula! – Now with E10 protection*

# TURBO

## CLEAN/RESTORE

### PROFESSIONAL TURBO CLEAN/RESTORE

Turbo Clean/Restore can be used for all Petrol and Diesel engines.

No need to dismantle, simply spray to dissolve contaminants and restore turbo power.

We recommend the using Eco-Motive CleanDrive every 3000 miles to maintain cleanliness after application.

- Cleans and unblocks dirty turbocharger with or without dismantling
- Dissolves gum / lacquer, tar, carbon and varnish,
- Restores turbo power to its manufacturers design point.
- Regains optimal air/fuel ratio.
- Harmless to exhaust gas after-treatment systems.

# Gaskit®

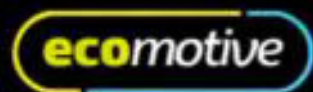

## PERMANENT HEAD GASKET REPAIR

Head gasket failure can be caused by a number of reasons including poor maintenance, corrosion, or engine overheating. Repairing a head gasket can be very costly. Gaskit® offers a cost effective solution.

Gaskit® uses specially formulated blend of harmless chemicals and ceramic micro-fibres to completely seal and repair gasket and coolant leaks including: cracked, warped or blown head gaskets, cylinder and coolant leaks, leaking radiators, oil leaks, engine block.

- Seals and repairs gasket and coolant leaks
- Permanent repair in a single treatment
- Able to withstand the high temperatures and pressures of a vehicles' combustion chamber
- Provides anti-rust protection
- Cost effective solution
